## Wallet

### Eligible Devices for use with Google Wallet

Google Wallet with tap and pay is available in the U.S. and requires an NFC-enabled Android device with a Secure Element chip running the most recent Android operating system. Google Wallet is available on the following devices on select carrier networks:

#### Phones

- HTC One® on Sprint
- HTC EVO 4G LTE on Sprint
- LG Viper 4G LTE on Sprint and Zact Mobile
- LG Optimus Elite on Sprint, Virgin Mobile and Zact Mobile
- LG Nexus 4 GSM/HSPA+ (available for purchase on [Google Play](#))
- Samsung Galaxy Note® II on Sprint and US Cellular
- Samsung Galaxy S4 on Sprint (available for purchase on [Google Play](#))
- Samsung Nexus S 4G on Sprint
- Samsung Galaxy Nexus on Sprint
- Samsung Galaxy Nexus GSM/HSPA+
- Samsung Galaxy Victory 4G LTE on Sprint and Virgin Mobile
- Samsung Galaxy SIII on Sprint, MetroPCS, US Cellular, Virgin Mobile and Boost Mobile
- Samsung Galaxy Axiom on US Cellular

#### Tablets

- Asus Nexus 7 (available for purchase on [Google Play](#))
- Samsung Nexus 10 (available for purchase on [Google Play](#))

#### International Devices

At this time, Google Wallet does not support devices purchased internationally. The eligible device list above only applies to devices purchased from the listed carriers next to them. For example, an unlocked Samsung Galaxy SIII purchased internationally will not work with Google Wallet.
